-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohga (5316870). See col. 1, line 38 to col. 2, line 43.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim(s) 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ohga in view of Gough (6241875). Ohga discloses all of the limitations of the claim(s) except for a flame trap being between the reformer and a combustion chamber. Gough discloses the presence of a flame trap being between the reformer and a combustion chamber. See col. 4, lines 60-65. Hence, one skilled in the art would find it obvious to modify the system of Ohga to include the flame trap being between the reformer and a combustion chamber of Gough for the purpose of device protection.

Claim(s) 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ohga in view of Saylor (6,205,957). Ohga discloses all of the limitations of the claim(s) except for an exhaust-

gas after-treatment system. Saylor discloses the presence of a an exhaust-gas after-treatment system. See col. 5, lines 33-41. Hence, one skilled in the art would find it obvious to modify the system of Ohga to include the exhaust-gas after-treatment system of Saylor for the purpose of pollution control.

Allowable Subject Matter

Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The provided references are representative of the state of the art that is applicable to the applicant's invention.
